Subject: RE: TCEQ monthly call today

I provided that update. Donna asked if we would do a 30 day public comment period. I responded that we weren't sure yet, but that since it's a FIP we may be locked to a 60 day. Vince asked if we would just propose the assurance level or other changes. I responded that we weren't sure of the details but that we might take comment on some of the other changes that we hadn't proposed before (like the rule language change for "and EPA approves").

Safe travels back home!

I think that's fine. We are planning on preparing a supplemental proposal.

Hi Michael,

I was planning to provide a brief update today on the TX monthly planning call regarding yesterday's briefing. My intent is to say that the briefing took place and that we have a green light to proceed with a supplemental proposal as we have previously discussed with TCEQ. Is this a fair/appropriate message to convey at this time?

Thanks,
